

Tennessee 618 Child Count District Data Dec. 1, 2007

Table 1-Section A reflects the number of infants and toddlers, ages birth through age 2 (children who have not reached their third birthday) who are receiving early intervention services under Individual with Disabilities Education Act (IDEA), have an Individualized Family Service Plan (IFSP) in place on December 1. Data are collected for each individual age and for each racial/ethnic category. A cross-tabulation of individual age by race/ethnicity is not collected.

Definitions of Race/Ethnicity Categories:

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. The Pacific Islands include Hawaii, Guam, and Samoa.
- Black or African American (not Hispanic): A person having origins in any the black racial groups of Africa.
- Hispanic or Latino: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
- White (not Hispanic): A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
- **Total**: The unduplicated total across the race/ethnicity designations.¹

Table 2-Report of Program Settings where early intervention services are provided to infants, toddlers with disabilities and their families in accordance with Part C. The original program settings categories included home, family day care, regular nursery school/day care center, outpatient service facility, early intervention classroom/center, hospital (inpatient), residential facility, and other setting. In 1998-99, Office of Special Education Programs (OSEP) eliminated the family child care category from the data collection. In addition, OSEP changed the labels, but not the definitions, of three categories. The early intervention classroom/center setting was re-named program designed for children with developmental delay or disabilities. The regular nursery school/child care center setting became program designed for typically developing children. Outpatient service facility was changed to service provider location. The program settings data collection requirements have not changed since 1998-99 revisions. Data are collected for seven program settings; the categories and their definitions are presented in Table 2.1 below. Each infant or toddler who receives early intervention services is reported only once on the Child Count form. Although infants and toddlers often receive services in several program settings, this data collection only collects information on the primary setting, that is, the program setting in which the infant or toddler receives the most hours of early intervention service.

2005-2006 Report Change

Beginning with the December 1, 2006 Child Count, OSEP reporting requirements changed related to 'Program Settings' data. The seven program settings previously reported have now been collapsed into three settings. The definitions for these three settings are presented in Table 2.1 below.

Table 2.1

Program Setting	Definition
1. Home	Services are provided primarily in the principal residence of the child's family or caregivers.
2. Community-based	Services are provided primarily in a setting where children without disabilities typically are found. These settings include but are not limited to child care centers (including family day care), preschools, regular nursery schools, early childhood center, libraries, grocery stores, parks, restaurants, and community centers (e.g., YMCA, Boys and Girls Clubs).
3. Other Setting	Services are provided primarily in a setting that is not home or community-based. These settings include, but are not limited to, services provided in a hospital, residential facility, clinic, and EI center/class for children with disabilities.

Table 3-Report on Infants and Toddlers Exiting Part C Programs. State counts of the number of infants and toddlers with disabilities, ages birth through age 2, who exited Part C services during a 12 month reporting period. Only infants and toddlers who had an active individualized family service plan (IFSP) in place at some time during the State determined 12 month reporting period. Data has been collected since 1998-99 reporting period. No changes have been made to this data collection. ²

Table 3.1

Program Completion	Definition
1. Completion of IFSP <i>prior to reaching maximum age</i> for Part C.	Include all children who have <i>not reached maximum age</i> for Part C, have completed their IFSP, and no longer require services under IDEA, Part C.
2. Eligible for IDEA, Part B.	Include all children served in Part C who exited Part C and were determined to be eligible for Part B during the reporting period. This includes children who receive Part B services in conjunction with Head Start.
3. Not eligible for Part B, exit with referrals to other programs.	Include all children <i>who reached maximum age</i> for Part C, were determined not eligible for Part B, and were referred to other programs, which may include preschool learning centers, Head Start (but not receiving Part B services), and child care centers, and/or were referred for other services, which may include health and nutrition services, such as WIC.
4. Not eligible for Part B, exit with no referrals.	Include all children who reached maximum age for Part C and were determined not eligible for Part B, but were not referred to other programs.
5. Part B eligibility not determined.	Include all children for whom Part B eligibility has not been made. This category includes children who were referred for Part B evaluation, but for whom the eligibility determination has not yet been made or reported and children for whom parents did not consent to transition planning. Include in this category any child <i>who reached maximum age</i> for Part C, and who has not been counted in categories 2 through 4 above.
Other Exit Reasons	Definition
6. Deceased	Include all children who died during the reporting period, even if their death occurred at the age of exit.
7. Moved out of State.	Include all children who moved out of State during the reporting period. Do not report a child who moved within State (i.e., from one program to another) if services are known to be continuing.
8. Withdrawal by parent (or guardian)	Include all children whose parents declined all services after an IFSP was in place, as well as children whose parents declined to consent to IFSP services and provided written or verbal indication of withdrawal from services.
9. Attempts to contact the parent and/or child were unsuccessful.	Include all children who have not reached the maximum age of service under Part C, who had an active IFSP, and for whom Part C personnel have been unable to contact or locate the family or child after repeated, documented attempts. Include in this category any child who did not complete an IFSP and exited Part C before reaching maximum age and who has not been counted in categories 6 through 8.
